Webinar Blueprint

Subject 1: How to Get Double Digit Converting Sales with Webinars (10-35% or more..)

Subject 2: How to Sell High Ticket Products with Your Own Webinar

Subject 3: How to Sell High-Ticket \$1,000+ Products with Your Own Webinar

It's a well known fact that webinars have a better conversion rate than most sales communication mediums simply because of the live social element and social proof.

Questions that could be potential objections can be answered in real time and as a result can increase conversion rates from 10-35% or more.

But numbers aside, webinars can do much more than just sell products and services. In fact, webinars can be used to build great relationships with customers and prospects which is often overlooked.

Many beginners make the mistake of thinking about making the sale first instead of gaining trust and providing value which leads to poor results.

So the big question is, how do you create high-converting webinars that engage your prospects and achieve the best conversion rates?

(10-35% or more..)**

**Subject 2: RE: How to Sell High Ticket Products with Your Own
Webinar (\$497, \$997, \$1997 or more...)**

If you're looking for a way to sell high-ticket items but are limited by the traditional long-scrolling sales letters, then it's time you started using webinars in your business.

Right now you can get your hands on the perfectly formulated blueprint to create webinars to sell your high-ticket products and services.

[YOUR LINK]

Here's a closed look at what's inside...

- Get the proven blueprint to set up the perfect webinar system from start to finish to automate your high-ticket sales.
- Find out exactly which webinar platforms we've tested and which ones can actually cost you a loss in sales (this tip alone can save you \$1000s in trial and error)
- Discover what key elements you need for webinar in order to achieve double digit conversions from cold traffic (... we're talking about 10%-35% sale conversions or more)
- How to pin-point your audience and figure out their desires and objects so you can craft the perfect pitch that sells every time
- How to grab attention, establish authority, build trust, relate to your audience, create interest, invoke desire and more within the span of 2 hours
- A top strategy on how to provide value in your webinar, what content to provide that gets people hooked, and how to transition smoothly into a sales pitch that works every time
- How to make your offer the most logical (and emotional) step in your webinar - get the other parts right and the sales process will be the easiest and most fun!
- Why selling high ticket products and services for 4-figures is just as simple as selling products low ticket items - and in some cases easier. (Hint - selling a \$1,000 product is not 100 times harder than selling a \$10 product)
- How to persuade hesitant people or those on the fence to buy your product or service with a few powerful tactics. This alone can make the difference between a winning campaign and a losing campaign.

If you're serious about delivering more value to your customers and clients and want to command higher prices for your products and services, then webinars are the way forward.

Webinar Formula

**Subject 1: Sky Rocket Your Sales by 300% or more with Webinars
(details inside...)**

Subject 2: 1 Simple Way Take Your Sales to the *Next Level*...

**Subject 3: How to Automate Your Sales and Sell Premium Products in
YEAR**

Did you know that starting your own webinar is the single most profitable leverage that separated the wealthy gurus from the rest of the 'average' experts with an opinion. And this powerful cash cannon is about to be in your hands!

[YOUR LINK]

Whether you're already a practicing speaker or aspiring to use this ultimate leverage and get MORE profit for LESS effort...

...there's nothing more effective than running your own seminar with hundreds or even thousands of paid attendees...

...and believe it or not you can do it from home!

There's no doubt about it, the big bucks are in webinars and here's why...

- Your attendees can join your webinar from anywhere in any part of the world! Touring to do local seminars is gradually becoming a thing of the past. And why restrict yourself to just a pool of people in a specific location?
- Your webinar can be only as long as 1 to 2 hours per session! You don't have to worry about whether you have the physical and speaking stamina to last for days in a row, or find guest speakers to help you 'buy some time'. You can run a 2 hour webinar session once a week, or 3 days in a row (which totals to just 6 hours!) and still make big profits!
- Cost of running a webinar can be low as a dinner for two a month! Forget about having months of preparation, finding location, booking hotel rooms, sourcing for people to run behind the scene while you conduct your seminar sessions, and then get surprised at how much all these add up to, on top of the hidden costs. This is because...
- You can do it all by yourself! Because of the virtual nature of webinars, you already save plenty of time, effort and money on these conventional costs and you can simply focus on delivering your seminar to a worldwide audience!

And by all means, this frees you completely so you can spend 90% of your energy marketing your webinar instead! Which is a big bonus too, because the cost of using the Internet to find paying attendees is going to be ridiculously LOW!

Check out the link below to see how profitable this can be for you...

Subject 2: RE: 1 Simple Way Take Your Sales to the Next Level...

**Subject 3: REMINDER: How to Automate Your Sales and Sell Premium
Products in YEAR**

There are a few ways to generate more cash in your business...

1. You can either sell more of your products
2. You can increase your conversion rate.
3. Or you can increase the price of your products.

Unfortunately there's a limit to how much traffic you can get in a day and thus how many products you can sell in a day... plus you can only fine-tune your conversions by so much...

However you can change your prices now... which will affect your profits immediately.

[YOUR LINK]

The only problem is that selling premium price products requires a different method of selling... especially if you're selling products or paid webinar access for \$100, \$300, \$500, \$1000 or more.

That's why Webinar Riches was created.

I want you to think about this for a second...

If you get a paid attendee at, say, \$97 each...

Keep in mind that you know you can easily charge higher than this for the content you deliver through your webinar... You can be asking for \$297 to \$997 per head...

But assuming you're selling your webinar seats at a conservative price of \$97 - and you successfully got in 100 attendees.

That's \$9,700!

And your webinar format is 2 hours per session, once a week, for 4 weeks in a row. That totals up to 8 hours.

Nearly \$38,800 for 8 hours of presentation.

Tell me, what other ways do you know of that gets you results like that in 8 hours?...

If you're serious about using webinars in your business to scale your profits then check out this course below before it's pulled down...
